

FOREIGN SITUATION ABSORBING FACTOR IN STOCK MARKETS

Market Is Almost Entirely Dull; Better Feeling Is Indicated, However, Through the Actions of Some Issues.

NEW YORK, Sept. 13.—Wall Street's absorbing interest in the diplomatic situation and the outcome of the impending foreign exchange negotiations were reflected in the dullness of today's trading. The market was in a state of suspended animation for the greater part of the session but became active and strong in the final hours on a report that Washington and Berlin had agreed to submit the main points of the Arabic incident to arbitration.

Another favorable factor was the announcement of the placing of additional large orders for steel and iron by foreign interests. These orders, it is declared, will likely be considerably augmented should the large Anglo-French war loan be made by our bankers.

Metal stocks also made decided improvement, the advance being associated with better inquiry for refined copper. United States Steel was not only the most active issue but most potent in effecting the late rise, selling up 1 3/4 points to 75 7/8 on an unusual large individual transaction.

War shares again contributed a very large percentage on the total but this group gathered momentum from the familiar professional sources. Railway shares repeated their variable or reactionary tendencies of the recent days and every marked gain being soon offset on profit-taking or bear pressure. Erie's an domestic other low priced issues were the only striking exceptions. Rock Island made some upward progress early in the session on reports that provisions have been made to meet the forthcoming interest payment on its debenture notes but lost all the advantage later.

Total sales 558,000 shares. Bonds were irregular, the conditions ascribed to further foreign offerings. Total sales par value aggregated \$2,479,000.

(By L. J. Overlock)
BOSTON, Sept. 13.—When we study the financial situation in this country we are amazed at the amount of resources replete and in sight. England sees this and is asking the assistance she needs. Fundamental conditions seem to be improving all the time. Domestic trade is improving and is bound to improve as we understand better the strength of our foundations. The fact that sentiment still remains conservative is favorable. Were it not for the restricting influence of our relations with Germany the upward swing would probably be substantial. Would the standard rails and good copper stocks on any quick break. Phelps Dodge divided \$250 and \$3 extra is payable to stock of record September 18th. Palace, Webber & Co.

J. J. Hovis invited to join conference of American bankers with Anglo-French commission.

Now believed von Pagen will voluntarily return to Germany.

N. L. Anstetter believes payment on Rock Island interest will be arranged today.

Germany on July 31st had 2,200,000 men on firing line.

Best grades steel ore \$80 a ton reduction \$5 from last week.

Copper metal unchanged, electrolytic quoted at 18 cents.

Berlin cable (via London) says German business men have transmitted to the United States an offer to buy 1,000,000 bales of cotton at 15 cents per pound, payable on delivery in a German harbor.

HAS RIGHT TO MAKE TROUBLE IN U. S., SAYS DUMBA; MAY GET HIS PASSPORTS

Ambassador Constantin Theodor Dumba.

As a result of his efforts to foment trouble in American factories and cause strikes and walk-outs in American plants manufacturing munitions for the allies, Dr. Constantin T. Dumba, Austrian ambassador to the United States, may be given his passports. Dumba defends his actions on the ground that he has a right to do anything that will embarrass Austria's enemies, even though his course may incidentally cause trouble in the United States.

MOOSE DOINGS FOR COMING WEEK HAVE GREAT MANY ANGLES

Loyal Order of Moose Will Send Big Delegation to Douglas to Conduct Initiation in Borderland Lodge; Local Events.

Taking a complete degree team and a large number of the members, the local Loyal Order of Moose will make a trip to Douglas next Tuesday night, September 21. The trip will be made for the purpose of installing a large class for the Borderland Lodge in Douglas. The Moose will leave on the late afternoon train and will return to Bisbee, as a special, late the same evening.

Immediately after the initiatory ceremonies the meeting will be an open one. The military lodges of the Loyal Order of Moose will be in attendance and one of the best and largest meetings in the history of the state is expected.

On Friday night the Moose will put through one of the largest classes in its history. The order has been keeping pace with the district and is adding to its rapidly growing membership with the best material to be found.

Another start made by the local lodge is the organization of a Moose heart Legion. One of such legions can be organized in each county. The present one which will be started during the last few days of September is the first one to be organized in the state of Arizona.

Mooseheart Legion is in the form of a degree and is the highest to be obtained in the order. It has as its object the formation of an endowment fund for the aid of Mooseheart in Illinois.

NO PERCENT CASE IS UP

WASHINGTON, Sept. 13.—Attorney General Jones of Arizona opened the fight in the Supreme court over the constitutionality of the Arizona alien labor law by filing a brief in support of the statute. The case will be heard next month. The lower court held it unconstitutional.

Attorney General Jones declared the people of Arizona, in enacting the law by the initiative method, were as much within their rights to protect their safety and welfare as the legislature of Pennsylvania was in passing the law against the sale of firearms to alien residents, a law since held constitutional. He urged the law would not necessarily work an inequality because of the relatively small number of aliens in the state.

CAUSE NOT DETERMINED.

HONOLULU, Sept. 13.—Rear Admiral Bouché, commander of the naval station, announced that although all of the data was suggestive regarding the sinking of the submarine F-3, he was unable to tell the cause of the disaster of March 25, costing the lives of Lieut. Ede and his crew of twenty-one. The board of inquiry began the final survey of the shell of the submarine in drydock.

TWO MURDERERS OF WALTER BROOKS

(Continued from Page 1)

led him. I hit him with rocks. Let's go down and find my hat." Maldonado asserts he refused to help his companion find the hat and left immediately by way of the railroad track and Upper Lowell, for Naco. He went into Mexico west of Naco and has been confined to his home with the wound he received in a short time ago.

Maldonado produced Brooks' gun and gave the officers other information which is conclusive. Accompanied by officers from General Cates' civil government, Maldonado was brought to Acma Prieta where he is now in jail.

It will be necessary for the officers to go through regular extradition channels to secure Maldonado. Accordingly, yesterday, Sheriff Wheeler swore out a charge of murder against the man and A. W. Howe will be commissioned and sent to Phoenix and later into Mexico, with the proper credentials, to secure the release of the prisoner from General Cates and bring him back to Cochise county to stand trial.

HINDENBURG SETS FOOT ON MAIN ROAD

(Continued from Page 1)

were held and corrupt government officials were denounced at meetings which were broken up by the police. It is reported that American businessmen say they could not do business of the officials without an advance of ten per cent in contract prices. The popular feeling is inflamed at the report. Shrapnel offered six months ago was refused and later purchased at twice the first price.

DIES FROM WOUNDS.

SAN FRANCISCO, Sept. 13.—Hugh Macbeth, proprietor of the rooming house where Gen. Nelson fought his last battle with the police, Saturday, is dead as the result of wounds.

MOB SEEKS PRISONER.

NOWATA, Okla., Sept. 13.—A mob of several armed men stormed the county jail tonight in search of B. L. Harkins, accused of assault on a twelve-year-old girl. It is believed the officials will be forced to surrender their prisoner.

NO HYPHONATED AMERICANS WANTED

Continued From Page One

took up all of the time of the court today.

Tomorrow the Cunningham-Costello case will be resumed and interrogatory Number Nine, of the plaintiff, will be up for consideration first as it had not been agreed upon when court adjourned Saturday evening.

Bliss Tickets.

Since Saturday Cupid has been rather busy in Cochise County and the clerk of the court has issued a number of licenses among which are the following:

William James of Douglas to wed Irene Brennan of the same place.
Nick Horanich of Bisbee to wed Lubien Hanaverich of the same place.
J. A. Ivey of Tombstone to wed Edith Josephine McPherson of the same place.

James Leishman of McNeal to wed Cecile Grace Holden of Warren.

Larry Glinther of Douglas to wed Amelia Heick of the same place.

Round-Ups Started.

Parties over from Wilcox (this morning bring word that a number of round-ups are in progress in that section and that there will be large shipments of cattle made from that place within the next few weeks. The ranges there are very dry and the cattlemen in that section are getting rid of what stock they can in order to protect their young cows. They intend to hold the young stock as the stockholders in other places of the county are doing. Those who are at work rounding up are the Riggs Cattle Company; The J. H. outfit and Monk Brothers. The Chiriquian Cattle Company is also at work and will ship a number of steers.

Married in Church.

J. Arthur Ivey and Miss Edith Josephine McPherson were joined in the holy bonds of matrimony early yesterday morning at the Episcopal Church, Reverend Shannon of Douglas performing the ceremony. Only a few intimate friends and relatives were present. The bride is the oldest daughter of J. H. McPherson and wife and was born in Tombstone and has many friends throughout Cochise County. She was a teacher in the public schools of Tombstone and the past year or so has been employed in the County Assessor's office. The groom is a present Chief Deputy in the County Treasurer's office and has been a candidate for the nomination for the office of County Recorder. The couple left by auto shortly after the ceremony for a trip to the Grand Canyon expecting to be gone for a couple of weeks. They carry with them the best wishes of hosts of friends throughout the county. The couple will make their home in Tombstone on their return.

More Liquor Stored.

Deputy Sheriff Bowden came in late Saturday afternoon with the county car loaded down with cases of whiskey that is to be stored in the Wheeler warehouse pending the disposition of the charges in the court in which the liquor is to be used as evidence. The commitment was that recently taken from the parties arrested near Rodas on this side of the New Mexico line and consisted of fifteen cases. Among this lot were cases of Old Jordan, Bond and Lillard and King of Kentucky. Many a wistful eye was cast at the cases as they were unloaded and when back into the jail. Many were tempted to break into jail but never had the thought before.

Old's Murder Case Continued.

An order was made in the Superior Court late Saturday afternoon on the showing made by Attorney Cleary for the defendant continuing the case of the State vs. Annie Olds, charged with the murder of William Olds, until the next term of the court or until the middle of latter part of November. The defendant, according to the affidavits filed, is ill and not able to be present at the present term of court. She is at present living in Oklahoma City, Oklahoma.

No Outside Work.

Complaint was made to the Board of Supervisors that a number of county employees were accepting work from outside parties when they were not engaged in their work for the county and thereby preventing others from securing the work and as a result the Board has notified such employees that they must desist in taking such work where they would prevent anyone else from securing such work. The notice applied to several in Tombstone as well as in other places.
